MEMORANDUM FOR THE HONORABLE WILLIAM J. CASEY
The Director of Central Intelligence

SUBJECT: Sanitized Version of European Gas Study (U)

I have reviewed with interest the sanitized version of the European gas study. You will recall that at last December's NSC meeting on alternative energy, the President was keenly interested in the four scenarios of European dependence on the Soviet Union and urged that this analysis be shared with the Allies. Thanks to your excellent report, we are now in a position to do so. I understand that [redacted] were responsible for putting together this excellent study. I would be grateful if you could express my personal thanks to them for a job well done. (C)
